Community organization Organization name: COFEM Organization address: 125 Paseo de la Plaza 5th Floor, LOS ANGELES, CA 90012	Agency, school, university or hospital Entity name: Entity address:
Business representative Business name: Business address:	Representative from an elected official's office Name of representative: Name of elected official: Jurisdiction:
Active resident (not representing a community organization or a business) Resident name: Primary residence address (or nearest intersection):	

Why are you interested in becoming a member of the AB 617 steering committee in the selected community?

As a representative of the Council of Mexican Federations, we have initiated an effort through the We Expect Clean Air Now Campaign (WECAN), to educate, empower, and engage the Southeast Los Angeles communities to address the public health crisis brought on by air pollution & limited resources. COFEM has raised awareness by organizing a symposium and community forums to address the correlation between air pollution and public health.

COFEM is well aware of the chronic conditions that air pollution is bringing to our underserved communities; thus, we advocate for social and environmental justice.

How would you support outreach to ensure all voices in the community are heard?

Community input/outreach is very important to COFEM and aims to strengthen the voice of our community with our Civic Promoters Program, which has resulted in molding hundreds of community leaders ("promoters") in Boyle Heights, San Fernando, East Los Angeles, and Southeast Los Angeles.

We would support outreach to ensure all types of voices are heard in our community by continuing to have monthly reunions to educate and empower our civic promoters on air pollution and the importance of promoting AB 617.

Goals of the AB 617 Community Steering Committee

The purpose of the community steering committee is to support active community involvement and collaboration in the AB 617 implementation process by providing a forum for identifying air pollution issues in the community and potential solutions. Committee members will be responsible for discussing a variety of topics including but not limited to:

- Provide input to define community boundaries;
- Community concerns about emission sources to develop a shared understanding of the community's air pollution challenge;
- Proposed strategies for the community air monitoring and emissions reduction programs;
- Approaches for additional community outreach; and
- Metrics to track progress.

Business representative Business name: Business address:	Representative from an elected official's office Name of representative: Name of elected official: Jurisdiction:
Active resident (not representing a community organization or a business) Resident name: Primary residence address (or nearest intersection):	

Why are you interested in becoming a member of the AB 617 steering committee in the selected community?

I am interested in becoming a member of the AB 617 Steering Committee in Boyle Heights/ELA area as I am an active member doing community education. The education and information I provide through the Boyle Heights Neighborhood Council is directly connected to Environmental Justice. As a member of East Yard Communities for Environmental Justice I am also knowledgeable about AB 617.

How would you support outreach to ensure all voices in the community are heard?

I would provide support in outreach by leveraging my personal networks. As an active community member in the area I have strong ties to local CBO's and NGO's that have membership bases in the communities. I would also support doing canvassing in our communities.

Goals of the AB 617 Community Steering Committee

The purpose of the community steering committee is to support active community involvement and collaboration in the AB 617 implementation process by providing a forum for identifying air pollution issues in the community and potential solutions. Committee members will be responsible for discussing a variety of topics including but not limited to:

Community organization Organization name: Boyle Heights Neighborhood Council Organization address: 2130 E. First Street, Suite 110 Los Angeles, CA 90033	Agency, school, university or hospital Entity name: Entity address:
Business representative Business name: Business address:	Representative from an elected official's office Name of representative: Name of elected official: Jurisdiction:
Active resident (not representing a community organization or a business) Resident name: Primary residence address (or nearest intersection): [REDACTED]	

Why are you interested in becoming a member of the AB 617 steering committee in the selected community?

As a Boyle Heights resident I have witnessed the environment injustices suffered by my community. I have worked via the Boyle Heights Neighborhood Council to ensure the community's voice is heard. I also see this committee as an opportunity to set in place tangible solution to support my community and others impacted by the poor air quality.

How would you support outreach to ensure all voices in the community are heard?

There is a currently a large gap in communication between the community and the agencies that are suppose to protect them. In part I believe it is the language we use to convey the information. When the information is too technical it alienates a large percentage of the impacted community. Secondly, the communities voice is often dismissed as aggressive when it is truly fear, despair, and understandable frustration. If selected I would work to reduce this gap by attending small community meetings during evenings and weekends, taping into faith based organizations, and door to door canvassing.

Goals of the AB 617 Community Steering Committee

The purpose of the community steering committee is to support active community involvement and collaboration in the AB 617 implementation process by providing a forum for identifying air pollution issues in the community and potential solutions. Committee members will be responsible for discussing a variety of topics including but not limited to:

Active resident (not representing a community organization or a business) Resident name: Primary residence address (or nearest intersection):	

Why are you interested in becoming a member of the AB 617 steering committee in the selected community?

I have been an active member of the 710 (North/South) project for more than 15 years as an advocate for the ELA (unincorporated) community, my goals included increased knowledge so as to learn more about community strategies that reduce emission and minimize the environmental impacts to same.

How would you support outreach to ensure all voices in the community are heard?

As board chair of Alma Family Services we are dedicated to advancing the quality of life of families and individuals coping with a range of needs including significant daily life stressors, emotional difficulties, substance abuse and/or developmental challenges: family engagement is a prerequisite for helping families achieve their goals. Alma serves thousands of families in across two counties, utilizing a family-centered practice. Families will be kept informed of the steering committee work and will be encouraged to provide feedback throughout the process.

Goals of the AB 617 Community Steering Committee

Active resident (not representing a community organization or a business) Resident name: Primary residence address (or nearest intersection):	

Why are you interested in becoming a member of the AB 617 steering committee in the selected community?

I care deeply about environmental justice. I live in the community of Montebello adjacent to East Los Angeles and the City of Commerce. I've been attending SCAQMD meetings for approximately 9 years as an advocate for clean air. I regularly attend community meetings in Boyle Heights and Huntington Park to discuss environmental issues.

How would you support outreach to ensure all voices in the community are heard?

I would report back to community activists/members in Boyle Heights as well as the members of the South East Los Angeles Coalition (SELA) a mixed group of labor unions and environmental activists in Huntington Park.

As Chair of the Environmental Justice Committee for the Sierra Club Angeles Chapter I would report back to our Sierra Club members/other leaders and also be able to post information/announcements on the EJ Com Facebook page

<p>Active resident (not representing a community organization or a business) Resident name: Primary residence address (or nearest intersection):</p>	

Why are you interested in becoming a member of the AB 617 steering committee in the selected community?

Our organization represents over 800 families living in the East LA, Boyle Heights, Commerce area. I believe we have the capacity to disseminate information to a large group of residents, request and receive vital information from our families to share with the committee and are able to host information sessions at our location. Our club sits in a pocket surrounded by three major freeways. More than 10% of our club's youth have respiratory ailments. I would like to be involved in any matter that might be able to improve the quality of life of our families.

How would you support outreach to ensure all voices in the community are heard?

As mentioned above, we represent many families and are able to do outreach face-to face, via our social media outlets, hosting events at our site, getting our teens involved in doing outreach in our communities and high schools, and having it be a component of our material when we attend resource fairs. We are also open to any other recommendations for outreach. We have the manpower.

Goals of the AB 617 Community Steering Committee

The purpose of the community steering committee is to support active community involvement and collaboration in the AB 617 implementation process by providing a forum for identifying air pollution issues in the community and potential solutions. Community organization Organization name: Our Lady of Victory Catholic Organization address: 1316 Herbert Ave, ELA, CA 90023	Agency, school, university or hospital Entity name: Entity address:
Business representative Business name: Business address:	Representative from an elected official's office Name of representative: Name of elected official: Jurisdiction:
Active resident (not representing a community organization or a business) Resident name: Primary residence address (or nearest intersection): [REDACTED]	

Why are you interested in becoming a member of the AB 617 steering committee in the selected community?

Our community has taken the brunt of environmental impact from industry and five major freeways. AB617 represents a generational change in how air quality rules would be enforced and developed. This represents a huge learning opportunity for our church community to participate and have a voice in the process that includes: Exide/Lead contamination, Rule 415 Odors, Truck traffic, etc. On a personal note, my father died from a rare form of blood cancer, in an area proven to have high cancer rates... I myself have had lifelong Asthma caused by industrial/commerical pollution.

How would you support outreach to ensure all voices in the community are heard?

Our Lady of Victory Catholic Church is faith based organization who serves approximately 48,000 citizens. It is the poorest of all Catholic churches serving a large latino based. Our Leadership / missionary teams number 126 member volunteer corp. The church is located right across from Eastman Elementary school which allows us even more access to our community. We currently have 10 classrooms, a kitchen, and a pantry that can help serve and host various meetings for the community. We have a thriving network of residences and businesses to assist.

- Goals of the AB 617 Community Steering Committee**
The purpose of the community steering committee is to support active community involvement and collaboration in the AB 617 implementation process by providing a forum for identifying air pollution issues in the community and potential solutions.
