

East Los Angeles, Boyle Heights, West Commerce (ELABHWC) Metal Processing Facilities

The map and table below show the locations of metal processing facilities located in the ELABHWC community boundary. This map may be used as a resource to help identify facilities that have South Coast Air Quality Management District (South Coast AQMD) active permits for a variety of operations including metal plating, finishing, cutting, grinding, and melting. These lists do not include coating/iron workplaces that only have a paint spray booth unless there are other metal-related permitted equipment onsite.

Additional information including facilities' names, address, and Facility Information Detail (F.I.N.D.) Facility ID - which can be used to find more facility information on South Coast AQMD's F.I.N.D. website - are available on page 2.
