2

## Community Steering Committee Co-Lead PSR-LA

*PSR-LA is leading the SCLA-PUSH Initiative and is an organization that advocates for policies and practices that improve public health, eliminate environmental and nuclear threats, and address health inequalities. PSR-LA has over a decade of experience working in the South Central Los Angeles (SCLA) community on toxics, air pollution & climate change, land use & community development, and oil and gas extraction. PSR-LA brings the strength and credibility of health professionals to local organizing efforts and regulatory action and*

3

## Community Steering Committee Co-Lead SCOPE

*Strategic Concepts in Organizing and Policy Education builds grassroots power to create social and economic justice for low-income, women and women identifying, immigrant, black, and brown communities in LA. To do this, SCOPE organizes communities, develops leaders, collaborates through strategic alliances, builds capacity through training programs, and educates South L.A.'s residents to have an active role in shaping policies that affect the quality of life in our region. Our core values are: justice, respect, responsibility, integrity, and voice.*

4

# About Watts Clean Air & Energy Committee

*The mission of the Watts Clean Air & Energy Committee is to empower the Watts Community to achieve environmental justice by improving our air quality and helping our community to gain access to careers in the growing green energy industry. With daunting data on the rise in the era of competition between public utilities, the three founders knew that the disadvantaged Watts community was in dire need to have active community education and engagement around the larger picture of global warming including air and energy.*

5

## COMMUNITY BOUNDARY

SOUTH LOS ANGELES CSC MEETING #1  
APRIL 1, 2021

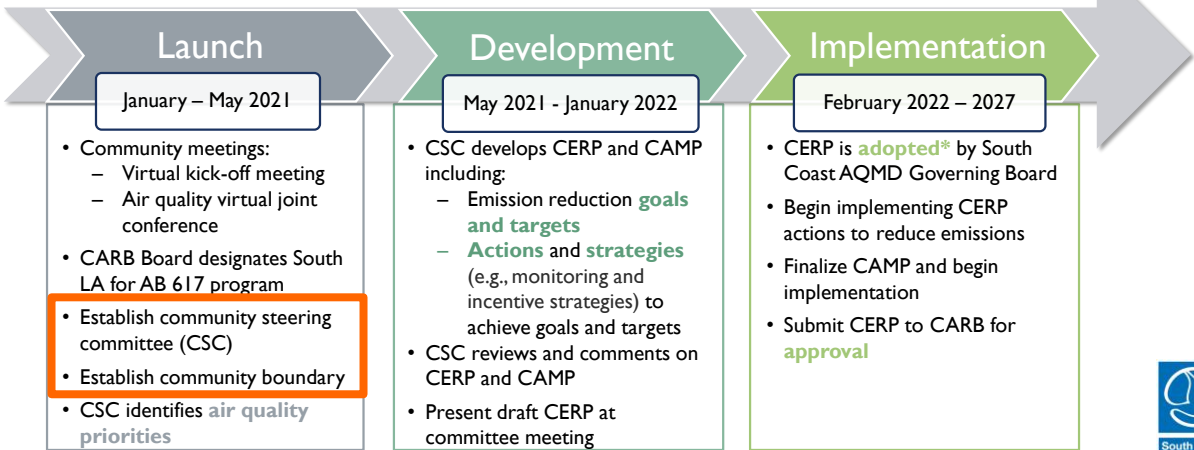

Nicole Silva  
Program Supervisor

6

# CERP AND CAMP DEVELOPMENT PROCESS AND TIMELINE

\* Health and Safety Code §44391.2(c)(2): CERP required to be adopted within one year of CARB's selection

7

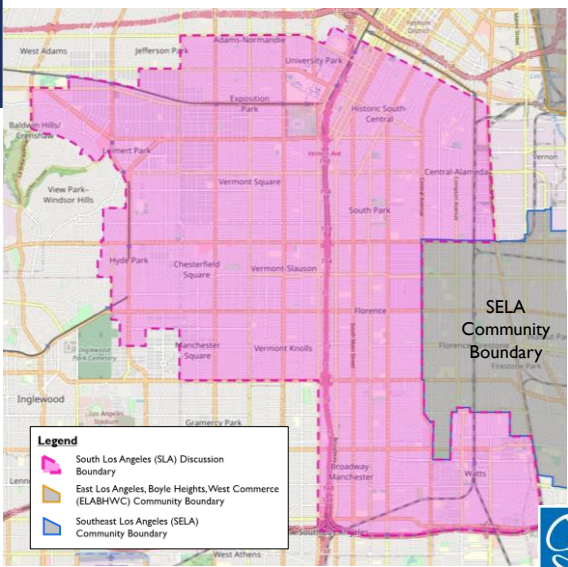

# COMMUNITY BOUNDARY

**Purpose:** to guide where AB 617 resources will be focused in this community

- Air measurements
- Incentives (e.g., funding for cleaner trucks)
- Emissions reductions

## Goals

- Identify the main impacted area\*
- Identify the emissions study area\*\* (Includes both the impacted area and nearby air pollution sources)

\* Neighborhoods outside the "impacted area" will benefit from reducing air pollution emissions near the boundary  
 \*\* South Coast AQMD rules, enforcement, and other programs apply throughout our District

8

## CSC DISCUSSION

Comments, Questions, Specific Air  
Quality Concerns?

9
