

Southeast Los Angeles Warehouse and Fleet Map

The map below shows the locations of warehouses and physical address of heavy-duty truck fleets in the Southeast Los Angeles Community Boundary. This map may be used as a tool to identify potential recipients of outreach information on relevant rules and incentive programs. Additional information on the data used to compile this map is available on page 2.

Additional Information

The warehouses identified on this map are defined by CoStar* as a secondary type of industrial building generally used for storage and/or distribution. The warehouse data was filtered by identifying property types classified as *Industrial* and building size of $\geq 100,000$ sq ft.

FleetSeek[†] defines a fleet as an entity that operates two (2) or more vehicles under one business or private owner/operators that may only have one truck. The map above includes only heavy-duty trucks. Heavy-duty trucks have a gross vehicle weight of 33,000 lbs or more.

*CoStar is a commercial real estate information and analytics provider

[†]Fleetseek is a database of half a million North American trucking operations and contacts with a database of contacts and demographics within the trucking industry including owners, managers and operators of trucking fleets and in-depth information about the fleets they manage.
