10/19/2018
10/26/2018

Community organization Organization name: Organization address:	Agency, school, university or hospital Entity name: Entity address:
Business representative Business name: <i>Andeavor</i> Business address: <i>2350 E 223rd St Carson, CA</i>	Representative from an elected official's office Name of representative: Name of elected official: Jurisdiction:
Active resident (not representing a community organization or a business) Resident name: Primary residence address (or nearest intersection):	

Why are you interested in becoming a member of the AB 617 steering committee in the selected community?

I love & work in the Carson & Upland area and would like to be part of the steering committee

How would you support outreach to ensure all voices in the community are heard?

Reaching out to local nonprofits, organizations, civil groups, etc.

Goals of the AB 617 Community Steering Committee

The purpose of the community steering committee is to support active community involvement and collaboration in the AB 617 implementation process by providing a forum for identifying air pollution issues in the community and potential solutions. Committee members will be responsible for discussing a variety of topics including but not limited to:

- Provide input to define community boundaries;
- Community concerns about emission sources to develop a shared understanding of the community's air pollution challenge;
- Proposed strategies for the community air monitoring and emissions reduction programs;
- Approaches for additional community outreach; and
- Metrics to track progress.

Information provided by you on this worksheet (including contact or other personal information) is a public record and may be released in response to a California Public Records Act request

Community organization Organization name: Organization address:	Agency, school, university or hospital Entity name: Entity address:
Business representative Business name: 3COTECH, Inc. Business address: 224 W 8th Street, San Pedro CA 90731	Representative from an elected official's office Name of representative: Name of elected official: Jurisdiction:
Active resident (not representing a community organization or a business) Resident name: Primary residence address (or nearest intersection):	

Why are you interested in becoming a member of the AB 617 steering committee in the selected community?

I live in Long Beach and own a small consulting business focused on innovation strategies for sustainable transportation. I've advised Metro on the selection, evaluation, and reporting of sustainability performance metrics. I've advised Harbor Community Benefit Foundation on the application and selection process to award grants for technology demonstration projects aimed to reduce port-related air emissions. My 20-year expertise and professional relationships allow me to recognize the problems we face in Southern California and I'd like to be part of the solution.

How would you support outreach to ensure all voices in the community are heard?

I believe that sustainable businesses not only reduce carbon footprint and use resources responsibly, but also embrace diversity, engage stakeholders, and leverage innovation. I also believe that as community leaders we must communicate effectively, increase resilience, guide the workforce transition, and promote economic development. For many years, I have been engaged via various workgroups at the ports and the cities of Long Beach and Los Angeles, Chambers of Commerce in LA and San Pedro, as well as organizations, including Harbor Association of Industry and Commerce and FuturePorts. I am part of this community.

Goals of the AB 617 Community Steering Committee

The purpose of the community steering committee is to support active community involvement and collaboration in the AB 617 implementation process by providing a forum for identifying air pollution issues in the community and potential solutions. Community organization Organization name: Organization address:	Agency, school, university or hospital Entity name: Entity address:
Business representative Business name: Alta Environmental Business address: 3777 Long Beach Blvd, Long Beach, CA 90807	Representative from an elected official's office Name of representative: Name of elected official: Jurisdiction:
Active resident (not representing a community organization or a business) Resident name: Primary residence address (or nearest intersection):	

Why are you interested in becoming a member of the AB 617 steering committee in the selected community?

As an air quality professional working in an environmental consulting firm in the community it is my job to be well versed in the local and state air regulations and I believe being a part of the steering committee would be an incredible opportunity to be involved further in the process of positively impacting our community's air quality and its residents' health and wellbeing, being that I myself am also a resident of this community.

How would you support outreach to ensure all voices in the community are heard?

Alta Environmental which is located right by the west Long Beach/ Wilmington/ Carson community has great outreach to the firms in the community and beyond as well as an understanding of the local community, which puts it in a unique position to hear the concerns from all sides. I, as a representative of this business, as well as a resident of the community, if provided the opportunity, will do my best in creating a bridge among the residents and the firms located in the community, and the regulatory agencies.

Goals of the AB 617 Community Steering Committee

The purpose of the community steering committee is to support active community involvement and collaboration in the AB 617 implementation process by providing a forum for identifying air pollution issues in the community and potential solutions. Committee members will be responsible for discussing a variety of topics including but not limited to:

Community organization Organization name: Organization address:	Agency, school, university or hospital Entity name: Entity address:
Business representative Business name: Calif. Small Business Alliance Business address: 273 N. Spruce Dr, Anaheim	Representative from an elected official's office Name of representative: Name of elected official: Jurisdiction:
Active resident (not representing a community organization or a business) Resident name: Primary residence address (or nearest intersection):	

Why are you interested in becoming a member of the AB 617 steering committee in the selected community?

Alliance members represent small businesses that are interwoven in the fabric of every community in Southern California. We have been active partners on the District's relevant committees, task forces, policy forums and working groups advising on efficient and cost-effective strategies to regulate small businesses and improve air quality in a fair and balanced manner. The Alliance was also an active partner on the Clean Communities Program, and regular contributors in developing Air Quality Management Plans, all designed to help bring the region into attainment.

How would you support outreach to ensure all voices in the community are heard?

Since our inception, Alliance members have responded to the District's requests for support in communicating with the business community. We effectively used our website and our members newsletters to inform the public, and especially small businesses, of the availability of laser spray guides and aqueous brake cleaners to reduce emissions and odors. Our automotive repair, gasoline dispensing station, and dry-cleaning member associations generously offered their expertise and resources to assist the District in streamlining the new permit process. We advertise District events on our website whenever requested, to cite three examples.

Goals of the AB 617 Community Steering Committee

The purpose of the community steering committee is to support active community involvement and collaboration in the AB 617 implementation process by providing a forum for identifying air pollution issues in the community and potential solutions. Committee members will be responsible for discussing a variety of topics including but not limited to:

Business representative Business name: Carson Chamber of Commerce Business address: 530 East Del Amo Blvd Carson, CA	Representative from an elected official's office Name of representative: Name of elected official: Jurisdiction:
Active resident (not representing a community organization or a business) Resident name: Primary residence address (or nearest intersection):	

Why are you interested in becoming a member of the AB 617 steering committee in the selected community?

The Carson Chamber and our members are active participants in the Carson community on many levels. Our diverse membership of industry sectors will be the affected industries and therefore we are interested stakeholders. Our members have business in Carson, work in Carson and some live in Carson. We bring community experience, operational knowledge and technical expertise to the CSC process. We are active and interested stakeholders and want to participate in this important committee.

How would you support outreach to ensure all voices in the community are heard?

Carson Chamber will ensure our members are aware of AQMD CSC meeting dates. We have email distribution, social media, in-person meetings and conference calls. We will be debriefing our members post CSC meetings and seeking their input. The Carson Chamber has good working relationships with our community, elected officials and city staff.

Goals of the AB 617 Community Steering Committee

The purpose of the community steering committee is to support active community involvement and collaboration in the AB 617 implementation process by providing a forum for identifying air pollution issues in the community and potential solutions. Community organization Organization name: Organization address:	Agency, school, university or hospital Entity name: Entity address:
Business representative Business name: Clean Energy Business address: 4675 MacArthur Court, Suite [REDACTED]	Representative from an elected official's office Name of representative: Name of elected official: Jurisdiction:
Active resident (not representing a community organization or a business) Resident name: Primary residence address (or nearest intersection):	

Why are you interested in becoming a member of the AB 617 steering committee in the selected community?

Clean Energy has been a positive and progressive company seeking to implement cost-effective, sustainable, and innovative fuel and clean truck technologies that significantly reduce mobile source air pollution (both criteria and carbon-based) in, around, and throughout the San Pedro Bay Ports and connected goods movement system. We believe we have the ability to provide invaluable input, resources, and support that will result in cleaner air for disadvantaged communities that are suffering significantly from mobile source air pollution, particularly from heavy-duty trucks, cargo-equipment, and ships.

How would you support outreach to ensure all voices in the community are heard?

Clean Energy is a community partner with numerous organizations that support clean air, climate protection and public health as these are important outcomes that our company and employees value. Clean Energy also has worked with the Port communities for over two decades with the goal of eliminating mobile source pollution as a public health threat. The company has made significant investments in Wilmington, Carson, West Long Beach region and throughout the South Coast Air Basin for that matter to bring cleaner renewable alternatives to diesel to the region to improve both overall air quality and carbon reductions.

Goals of the AB 617 Community Steering Committee

The purpose of the community steering committee is to support active community involvement and collaboration in the AB 617 implementation process by providing a forum for identifying air pollution issues in the community and potential solutions. Committee members will be responsible for discussing a variety of topics including but not limited to:

- Provide input to define community boundaries;

Active resident (not representing a community organization or a business) Resident name: Primary residence address (or nearest intersection):	

Why are you interested in becoming a member of the AB 617 steering committee in the selected community?

I am based at our office in Carson and work throughout Wilmington, Carson and West Long Beach. Our operations have around 25 employees that work in the impacted area. We all are directly impacted by the poor air quality in the area. We work tirelessly to bring clean truck technology to port-area operations and have invested greatly to provide the fueling infrastructure to make this possible. We are committed to improving air quality in the area to benefit residents and businesses.

How would you support outreach to ensure all voices in the community are heard?

I work with truck drivers, trucking companies, community groups, and elected officials. We perform extensive outreach with lots of focus on truck drivers to promote clean truck alternatives to diesel, educate on grant funding that is available, and assist with grant applications. We have the ability to distribute information through direct interaction, word-of-mouth, social media, flyers, driver meetings, and email communications. I also participate in business associations in the area providing another outlet for distributing communications such as FuturePorts, Harbor Association of Industry and Commerce, LA Transportation Club, Harbor Trucking Association, and Propeller Club. We are also active participants in environmental community organizations.

Goals of the AB 617 Community Steering Committee

The purpose of the community steering committee is to support active community involvement and collaboration in the AB 617 implementation process by providing a forum for identifying air pollution issues in the community and potential solutions. Active resident (not representing a community organization or a business) Resident name: Primary residence address (or nearest intersection):	

Why are you interested in becoming a member of the AB 617 steering committee in the selected community?

My passion is to serve the communities in which we serve. Wilmington and Carson and parts of Long Beach are all communities in which we serve. I have an established track record of working with community groups, residents, and government officials in the selected areas as well as serve on community boards. I've also been engaged in researching air monitoring for quite some time due to our business.

How would you support outreach to ensure all voices in the community are heard?

I would work with my colleagues on the steering committee to define our communication goals and identify strategies to implement that ensure all voices are heard. This could be through a variety of mediums including in person presentations, online, print and community stakeholder partnerships.

Goals of the AB 617 Community Steering Committee

The purpose of the community steering committee is to support active community involvement and collaboration in the AB 617 implementation process by providing a forum for identifying air pollution issues in the community and potential solutions. Business representative Business name: Fast Lane Transportation, Inc Business address: 2400 E. Pacific Coast Hwy,	Representative from an elected official's office Name of representative: Name of elected official: Jurisdiction:
Active resident (not representing a community organization or a business) Resident name: Primary residence address (or nearest intersection):	

Why are you interested in becoming a member of the AB 617 steering committee in the selected community?

I have operated a trucking and container storage and repair business in Wilmington for almost 40 years. I am past president of the Wilmington Chamber of Commerce (12 years), a founding member of the Wilmington Neighborhood Council, a board member of several local non profits (Boys & Girls Clubs of the Los Angeles Harbor (board chair), Wilmington YMCA, and Banning Residence Museum (past president). I currently serve as a member of the Los Angeles County Consumers Commission and Mayor of the City of Rolling Hills. Wilmington is heavily impacted by industrial use, but I believe industry and community can coexist and would like to be part of the solution in bringing the disparate communities together.

How would you support outreach to ensure all voices in the community are heard?

As mentioned above, I have a lot of experience and long history in the Wilmington community. I move easily between community groups and business organizations and have developed trust among them.

Goals of the AB 617 Community Steering Committee

The purpose of the community steering committee is to support active community involvement and collaboration in the AB 617 implementation process by providing a forum for identifying air pollution issues in the community and potential solutions. Community organization Organization name: Long Beach Area Chamber of Commerce Organization address: 1 World Trade Center #1650 Long Beach, CA 90831	Agency, school, university or hospital Entity name: Entity address:
Business representative Business name: Business address:	Representative from an elected official's office Name of representative: Name of elected official: Jurisdiction:
Active resident (not representing a community organization or a business) Resident name: Primary residence address (or nearest intersection):	

Why are you interested in becoming a member of the AB 617 steering committee in the selected community?

The Long Beach Area Chamber of Commerce represents a wide variety of businesses - small and large - with representation throughout the city including in the selected area of Wilmington / West Long Beach / Carson.

How would you support outreach to ensure all voices in the community are heard?

The Chamber utilizes multiple mediums to reach our membership and the greater community which includes but not limited to: eBlasts, eNewsletters, press releases, printed magazine articles, website presence, etc.

Goals of the AB 617 Community Steering Committee

The purpose of the community steering committee is to support active community involvement and collaboration in the AB 617 implementation process by providing a forum for identifying air pollution issues in the community and potential solutions. Committee members will be responsible for discussing a variety of topics including but not limited to:

- Provide input to define community boundaries;
- Community concerns about emission sources to develop a shared understanding of the community's air pollution challenge;
- Proposed strategies for the community air monitoring and emissions reduction programs;
- Approaches for additional community outreach; and
- Metrics to track progress.

Community organization Organization name: Organization address:	Agency, school, university or hospital Entity name: Entity address:
Business representative Business name: Los Angeles Co. Business Fed Business address: 6055 Washington Blvd., St.	Representative from an elected official's office Name of representative: Name of elected official: Jurisdiction:
Active resident (not representing a community organization or a business) Resident name: Primary residence address (or nearest intersection):	

Why are you interested in becoming a member of the AB 617 steering committee in the selected community?

The Los Angeles County Business Federation (BizFed) represents thousands of employers throughout Los Angeles County, many of whom reside in the Carson/Wilmington/West Long Beach areas and will be impacted by the AB 617 implementation process. Our members include small business, refineries, warehouses, trucking industries, the ports, manufacturing, oil and gas operators and others. We have thoroughly reviewed and provided valuable feedback to CARB with regards to the AB 617 Blueprint and believe we can be a valuable addition to the steering committee. I personally (Sarah) reside in the West Long Beach area - so I have a personal interest in seeing emission reductions while making sure the business community is represented in the process.

How would you support outreach to ensure all voices in the community are heard?

We believe all community voices should be heard - we absolutely support an open process. BizFed has an expansive email database, an excellent track record with the local media and connections in each of the areas. We can be an open voice in making sure that all members of the community are heard and aware of the progress being made by the AQMD and the local steering committee.

Goals of the AB 617 Community Steering Committee

The purpose of the community steering committee is to support active community involvement and collaboration in the AB 617 implementation process by providing a forum for identifying air pollution issues in the community and potential solutions. Committee members will be responsible for discussing a variety of topics including but not limited to:

- Provide input to define community boundaries;

Community organization Organization name: Organization address:	Agency, school, university or hospital Entity name: Entity address:
Business representative Business name: PMSA Business address: 1 World Trade Center, LB	Representative from an elected official's office Name of representative: Name of elected official: Jurisdiction:
Active resident (not representing a community organization or a business) Resident name: Primary residence address (or nearest intersection):	

Why are you interested in becoming a member of the AB 617 steering committee in the selected community?

PMSA (whose offices are located within the Wilmington/West Long Beach/Carson community) represents dozens of business that operate in the Wilmington/West Long Beach/Carson community at the ports of Long Beach and Los Angeles. These operations have been the focus of the successful effort to reduce emissions for the past decade. Further reductions will require working collaboratively with community business partners on innovative approaches to technology and the funding approach while ensuring that these community jobs are preserved.

How would you support outreach to ensure all voices in the community are heard?

PMSA will provide the steering community with input from the port community that is an important part of the the communities. The companies that PMSA represents employ thousands of community residents and are important to the fabric of the local community. The absence of PMSA will ensure that not all voices in the community are heard.

Goals of the AB 617 Community Steering Committee

The purpose of the community steering committee is to support active community involvement and collaboration in the AB 617 implementation process by providing a forum for identifying air pollution issues in the community and potential solutions. Committee members will be responsible for discussing a variety of topics including but not limited to:

- Provide input to define community boundaries;

Community organization Organization name: Organization address:	Agency, school, university or hospital Entity name: Entity address:
Business representative Business name: SA Recycling Business address: 16815 S Main St, Carson CA 90248	Representative from an elected official's office Name of representative: Name of elected official: Jurisdiction:
Active resident (not representing a community organization or a business) Resident name: Primary residence address (or nearest intersection):	

Why are you interested in becoming a member of the AB 617 steering committee in the selected community?

SA Recycling has been an active and trusted member in Carson for many years. SA works with many local businesses and local residents to recycle local household products, cars and industrial metal. As a recycler, SA is extremely interested in the environment including clean air. The steering committee should have a cross section of local business and local residents. SA Recycling is a local business that offers a relationship with other local businesses and local residents as well an experience and knowledge of environmental matters.

How would you support outreach to ensure all voices in the community are heard?

As a local business that deals daily with local businesses and local residences SA Recycling is able to talk and communicate with local business and residents about the outreach program. As a recycler whose core business is about the environment, SA can be a local business that can offer a voice for the local community.

Business representative Business name: Valero Refinery Business address: 2402 E. Anaheim Street, VA	Representative from an elected official's office Name of representative: Name of elected official: Jurisdiction:
Active resident (not representing a community organization or a business) Resident name: Primary residence address (or nearest intersection):	

Why are you interested in becoming a member of the AB 617 steering committee in the selected community?

I am interested in being a member of the AB617 steering committee because I have worked in this community for the last 12+ years trying to bring balance to the voices of the community with the refiners. While I have represented refineries as a public affairs rep., my commitment has been to communicate with local schools, organizations on refinery operations, but also educate on items that may seem technical for community members with no prior refiner experience. It is also my duty to communicate the concerns of the community to the refinery so that the refinery understands the concerns and tries to address those or find balance to be a good neighbor. I have always worked on having a respectable relationships with all organizations across the board, even when residents do not have an affiliation, I have made myself available.

How would you support outreach to ensure all voices in the community are heard?

I commit to listening to concerns and being an engaged partner, and to be sensitive to the ideas expressed be technical or non technical. I also commit to work with the committee to address ideas and challenges in a format that can be communicated to the community including cultural and language sensitivities. I agree that our goal is to understand the emission sources and challenges to address exposures. Working collectively will only help with building trust and communication with each other, even when there is no agreement on an issue, but having an open dialogue is key in focusing on a plan that will help address such challenges.. As a former elected representative and community organizer, I can appreciate and help create plans for outreach, and most importantly set metrics to be communicated on progress with the community in ensuring those not at the table feel that their voices are being heard.

Goals of the AB 617 Community Steering Committee

The purpose of the community steering committee is to support active community involvement and collaboration in the AB 617 implementation process by providing a forum for identifying air pollution issues in the community and potential solutions. Active resident (not representing a community organization or a business) Resident name: Primary residence address (or nearest intersection):	

Why are you interested in becoming a member of the AB 617 steering committee in the selected community?

Watson Land Company owns and manages three master planned industrial parks in the city of Carson which house more than 100 companies and represent nearly 10,000 local jobs primarily in the logistics, distribution and warehousing sector.

How would you support outreach to ensure all voices in the community are heard?

On behalf of Watson Land Company, I serve on numerous non-profit community and business organization boards including the city of Carson Economic Development Commission (appointed by the Mayor and city council), the Carson Dominguez Employers Alliance and the Carson Sheriff Station Support Foundation. In addition, Watson employees are actively involved and serve in leadership roles in virtually every Carson based civic and charitable organization thru which we could support outreach into all sectors of the community.

Business representative Business name: <i>Carrillo Strategies</i> Business address: <i>PO Box 2091 Wilmington, CA 90748-2091</i>	Representative from an elected official's office Name of representative: Name of elected official: Jurisdiction:
Active resident (not representing a community organization or a business) Resident name: <i>Sergio Carrillo</i> Primary residence address (or nearest intersection): [REDACTED]	

Why are you interested in becoming a member of the AB 617 steering committee in the selected community?

I am a life-long resident of the community of Wilmington. I am also a business owner in the community and very involved in several organizations. I serve on the Board of Directors of the Boys & Girls Clubs of the Los Angeles Harbor, the Wilmington YMCA and the Wilmington Chamber of Commerce. I am also an active member of the Rotary Club of Wilmington. I also served in the past as the Wilmington Deputy for the City Council Office where I also served as a planner and economic development deputy.

I am interested in becoming a member of the AB 617 Steering Committee because I think my knowledge of the community and my well-rounded background would be an asset to the committee.

How would you support outreach to ensure all voices in the community are heard?

I am involved in several organizations in the community and will use those relationships to ensure that all of the voices of the community are heard. My service organization, Rotary, is made up of most of the representatives of the non-profit community as well as elected officials. I would also use my relationship there to ensure outreach is conducted.

Finally, I love my community and want to make sure that whatever we decide, that we have buy-in from the entire community. This is our one opportunity to get this done right.

Goals of the AB 617 Community Steering Committee

The purpose of the community steering committee is to support active community involvement and collaboration in the AB 617 implementation process by providing a forum for identifying air pollution issues in the community and potential solutions. Goals of the AB 617 Community Steering Committee

The purpose of the community steering committee is to support active community involvement and collaboration in the AB 617 implementation process by providing a forum for identifying air pollution issues in the community and potential solutions. Committee members will be responsible for discussing a variety of topics including but not limited to:

- Provide input to define community boundaries;
- Community concerns about emission sources to develop a shared understanding of the community's air pollution challenge;
- Proposed strategies for the community air monitoring and emissions reduction programs;
- Approaches for additional community outreach; and
- Metrics to track progress.

Select ONE community:

- Wilmington / West Long Beach / Carson
- San Bernardino / Muscoy
- East Los Angeles / Boyle Heights

DUE DATE

10/12/2018

10/19/2018

10/26/2018

Community organization Organization name: Organization address:	Agency, school, university or hospital Entity name: Entity address:
Business representative Business name: Business address: <i>Wilmington Chamber of Commerce</i>	Representative from an elected official's office Name of representative: Name of elected official: Jurisdiction:
Active resident (not representing a community organization or a business) Resident name: <i>Dan Hoffman</i> Primary residence address (or nearest intersection): <i>1315 W I Street, Wilmington CA</i>	

Why are you interested in becoming a member of the AB 617 steering committee in the selected community?

I have lived in Wilmington for almost 45 years have participated in community cleanups, tree plantings, graffiti removal, moderated the Wilmington information Network for five Years and am passionate about my community. I live next to the harbor freeway and a couple of blocks from Phillips 66.

How would you support outreach to ensure all voices in the community are heard?

I have a significant network through my church and work. To be transparent I submitted an application for the Wilmington Chamber of Commerce but in the event that that application would not qualify; I think that I certainly would qualify as a resident.

Community organization Organization name: Organization address:	Agency, school, university or hospital Entity name: Entity address:
Business representative Business name: WSPA Business address: 970 W. 190th Torrance CA	Representative from an elected official's office Name of representative: Name of elected official: Jurisdiction:
Active resident (not representing a community organization or a business) Resident name: Primary residence address (or nearest intersection):	

Why are you interested in becoming a member of the AB 617 steering committee in the selected community?

I am the technical manager of Southern California for WSPA, and several of my member companies have facilities of an affected industry and are interested stakeholders in the community. I have participated in the public process for developing the Blueprint for AB 617, as well as R1180 Refinery Fenceline and Community Monitoring. I have a in-depth working knowledge of the regulatory background of the program, the air quality and air monitoring programs of the SCAQMD, and understand how complex this issue is from technical, regulatory, and community perspectives. I understand the importance for the program to be technically sound and accurate, as well as being viable to the community and driven from direct input. I currently serve on SCAQMD's MATES V TAG, BACT SRC, Home Rule Advisory Group, Permit Streamlining Task Force and PR 1410 working group. In these committees, I represent an industry, but I take a balanced approach, am collaborative and support hearing from diverse perspectives. I feel my knowledge, experience, background, and expertise could help you add to the the committee a member of affected industry with community knowledge, technical, and scientific expertise, which is required by the CAPP Blueprint.

How would you support outreach to ensure all voices in the community are heard?

Within my role with WSPA, I have the ability to communicate with affected industry members and other stakeholders of affected communities such as contractors and consultants, and will be able to ensure their voices are reflected in the process. I live in Long Beach, although not specifically West Long Beach. I am an involved and active member of my neighborhood and community, including being a member of the Junior League of Long Beach (JLLB) and multiple Democratic Clubs. I am aware of the critical issues in my city and the concerns of its citizens across all areas. As a member of JLLB, I actively lead youth anti-bullying, confidence, and public health programs in West Long Beach and North Long Beach, as well as initiatives with the Long Beach Human Trafficking Taskforce. I am also a trained facilitator with JLLB, and I value the perspectives of others and strive to ensure a process is followed for all voices in a group to be heard and considered. I think in the steering committee process, it will be crucial to have all voices heard. I am also a member three Long Beach Democratic Clubs (Yes We Can, Democratic Women's Study Club Long Beach), and I am a past president of a Democratic club. I appreciate and understand that people come from different perspectives and have different experiences, and a wide diversity of opinions and inputs, listening, collaboration and compromise is key to a successful outcome.
