10/19/2018

10/26/2018

Community organization Organization name: Organization address:	Agency, school, university or hospital Entity name: Entity address:
Business representative Business name: Business address:	Representative from an elected official's office Name of representative: Name of elected official: Jurisdiction:
Active resident (not representing a community organization or a business) Resident name: Corina Dubon Primary residence address (or nearest intersection): [REDACTED] [REDACTED]	

Why are you interested in becoming a member of the AB 617 steering committee in the selected community?

Because I want to have input in what's going on in my community for mine and my family's sake.

How would you support outreach to ensure all voices in the community are heard?

Through my professional and personal networks.

Goals of the AB 617 Community Steering Committee

The purpose of the community steering committee is to support active community involvement and collaboration in the AB 617 implementation process by providing a forum for identifying air pollution issues in the community and potential solutions. Committee members will be responsible for discussing a variety of topics including but not limited to:

- Provide input to define community boundaries;
- Community concerns about emission sources to develop a shared understanding of the community's air pollution challenge;
- Proposed strategies for the community air monitoring and emissions reduction programs;
- Approaches for additional community outreach; and
- Metrics to track progress.

10/12/2018

10/19/2018

10/26/2018

Community organization Organization name: Organization address:	Agency, school, university or hospital Entity name: Entity address:
Business representative Business name: Business address:	Representative from an elected official's office Name of representative: Name of elected official: Jurisdiction:
Active resident (not representing a community organization or a business) Resident name: Sergio Franco Primary residence address (or nearest intersection): [REDACTED] Carson, CA [REDACTED]	

Why are you interested in becoming a member of the AB 617 steering committee in the selected community?

I believe that being on this committee is a valuable as I have lived in Carson all my life. I was born and raised in this community and went to Carson High School and now my kids are attending the same schools as well. I'm proud of where I grew up and think it would be great to give back to my community by learning more about the environment to make changes and address some of the things we hear about what is in the air. This is especially important as my kids all do outside sports (travel ball) at the local parks and I'm an avid runner. I have a lot of family and friends in this area and I'm pretty sure they too would be interested in learning more so being on this committee I would help bring that information to them and the local neighbors of this community.

How would you support outreach to ensure all voices in the community are heard?

I am a true believer that we all need to work together, so if on this committee, I would make sure that the people on this committee and I come up with a plan to include everyone and a way to reach as many people as possible on our plan to move forward. I am involved and know a lot of parents at Carson High School, but also have a lot of friends in Wilmington and San Pedro, so it will not be difficult to arrange meetings or gatherings so that people get all the information that we are discussing on the committee.

Goals of the AB 617 Community Steering Committee

The purpose of the community steering committee is to support active community involvement and collaboration in the AB 617 implementation process by providing a forum for identifying air pollution issues in the community and potential solutions. Active resident (not representing a community organization or a business) Resident name: Francisco Lomeli Primary residence address (or nearest intersection): [REDACTED] Carson, Ca [REDACTED]	

Why are you interested in becoming a member of the AB 617 steering committee in the selected community?

As a life long resident of Wilmington, Torrance and Carson, The Community is important to me. Having knowledge of the local area, I feel I can provide much needed input. It is important for me to be involved in my community.

How would you support outreach to ensure all voices in the community are heard?

Having spent my whole life in the area, I have a large number of family members and neighbors that I have known for years. I also have possible social media platforms to get input and share information.

Goals of the AB 617 Community Steering Committee

The purpose of the community steering committee is to support active community involvement and collaboration in the AB 617 implementation process by providing a forum for identifying air pollution issues in the community and potential solutions. Active resident (not representing a community organization or a business) Resident name: Joseph Luis Piñon Primary residence address (or nearest intersection): [Redacted] Carson, CA [Redacted]	

Why are you interested in becoming a member of the AB 617 steering committee in the selected community?

I have always had an interest in environmental issues. And as a lifelong resident of the harbor area, local environmental issues are especially important to me. I have previously served four years on the City of Carson Environmental Commission, including the last three years as the Chairman. I have also served two years on Carson's Planning Commission.

How would you support outreach to ensure all voices in the community are heard?

I am a member of several political and civil organizations that either serve the communities of Wilmington, Carson, and Long Beach exclusively or predominantly. If appointed not only would I hear from the communities through these organizations but I will also make myself available to hear from all concerned parties either in person or via email.

Goals of the AB 617 Community Steering Committee

The purpose of the community steering committee is to support active community involvement and collaboration in the AB 617 implementation process by providing a forum for identifying air pollution issues in the community and potential solutions. Committee members will be responsible for discussing a variety of topics including but not limited to:

Active resident (not representing a community organization or a business) Resident name: Daniel Toledo Primary residence address (or nearest intersection): [REDACTED] Carson, CA [REDACTED]	

Why are you interested in becoming a member of the AB 617 steering committee in the selected community?

I am interested in being a member of the AB617 steering committee because I was born and raised in the Wilmington and Carson communities and have decided to raise my family here as well. I want my children to be proud of where they live and also be able to understand challenges and present solutions to the many things that surround us. I am a graduate of Banning High School as is my wife. Together, our family strives to be more community oriented. I understand that being on the committee is a commitment and civic duty, which I take very seriously. I want this community to be able to improve the air quality standards for my children and extended families. I would be honored to be a part of this committee.

How would you support outreach to ensure all voices in the community are heard?

As a life long resident and graduate of the local high school, I am proud to be a part of the south bay communities. I am acquainted with many members of the community and enjoy participating in local sports teams and city events. I am an active member of Mission Ebenezer Family Church, in which attendees are primarily from the Carson, Wilmington, San Pedro areas. I have volunteered with organizations such as United Way, U.S. Vets, El Dorado Nature Center, YMCA, Boys & Girls Club, and many others. I am an engineer by degree and can use my university experience to connect to members of the community. Whether in person, through meetings, or via social media, I am committed to ensuring that all voices and opinions are heard.

Why are you interested in becoming a member of the AB 617 steering committee in the selected community?

I live in a community surrounded by various facilities that pollute the air and am interested in finding solutions to reduce emissions that are harmful to the community

How would you support outreach to ensure all voices in the community are heard?

I am part of a community based organization and can help have conversations with members of the community to hear the solutions they would like to see

Goals of the AB 617 Community Steering Committee

The purpose of the community steering committee is to support active community involvement and collaboration in the AB 617 implementation process by providing a forum for identifying air pollution issues in the community and potential solutions. Why are you interested in becoming a member of the AB 617 steering committee in the selected community?

I have lived in the Westside for many years and have experienced the impacts first hand from pollution. There is a rail yard next to me, and a refinery beyond that. I want to be a part of helping reduce emissions in my neighborhood for myself as well as my neighbors.

How would you support outreach to ensure all voices in the community are heard?

I am connected with many people, groups, businesses, and participate in different spaces across our community. Collaboration is what I do. I want to work with anyone that wants to achieve a common goal and get things done.

Goals of the AB 617 Community Steering Committee

The purpose of the community steering committee is to support active community involvement and collaboration in the AB 617 implementation process by providing a forum for identifying air pollution issues in the community and potential solutions. Why are you interested in becoming a member of the AB 617 steering committee in the selected community?

After reading the 2018 IPCC report, I feel that it is my responsibility to take actions and help my community to support our environment. Also, my career in environmental monitoring of wastewater and drinking water makes me have a unique understanding of the needs of our community to take action for environmental conservation.

How would you support outreach to ensure all voices in the community are heard?

To ensure all voices in the community are heard, we must provide education and opportunity. I will support any and all outreach programs that educate the community and allow them to give informed input. I already do this with the LGBTQ+ community in supporting programs that educate about HIV/AIDS and provide STI testing along with medical access for those in need.

Goals of the AB 617 Community Steering Committee

The purpose of the community steering committee is to support active community involvement and collaboration in the AB 617 implementation process by providing a forum for identifying air pollution issues in the community and potential solutions. ★ Disclosure - I'm with Coalition for Clean Air

Why are you interested in becoming a member of the AB 617 steering committee in the selected community?

~~While I live in~~ I live in Long Beach for over 25 years and am very interested in the health & air quality of my community. While I work on environmental policy & AB 617 through CCA I understand the position is to represent the community.

How would you support outreach to ensure all voices in the community are heard?

I am actively involved with Long Beach politics and have a good relationship with local electeds & their staff. I got two city council members & supervisor Hahn to sign a letter in support of LB, Wilmington & Carson's nomination.

Goals of the AB 617 Community Steering Committee

Active resident (not representing a community organization or a business) Resident name: Jarrod Davis Primary residence address (or nearest intersection): [REDACTED] Long Beach, CA [REDACTED]	

Why are you interested in becoming a member of the AB 617 steering committee in the selected community?

I'm interested in becoming a member of this committee because I am a parent of very young children and want to make sure that we are securing their future. We hear a lot about emissions but we don't always know what that means or where it is coming from so I think this will give us all an opportunity to learn but also to make a difference in our children's lives. I have two kids, both whom are very involved in school activities. My son plays club soccer so it is important to me to learn more about how we will address some of these things. My daughter is a college student at LB City College, so being able to learn about our environment will help with our conversations about what she is learning and what she is interested in pursuing in her career as well.

How would you support outreach to ensure all voices in the community are heard?

I'm a family guy who loves his community as is all my family. My wife belongs to the New Hope Foundation in Long Beach, so I believe that I can help with organizing a meeting with them and other surrounding organizations. I work with my son's club soccer team so that I can share what I have learned and express their ideas and concerns on the committee. I am also open to all the ideas the committee members have to reach everyone in the communities.

Goals of the AB 617 Community Steering Committee

10/19/2018

10/26/2018

Community organization Organization name: Organization address:	Agency, school, university or hospital Entity name: Entity address:
Business representative Business name: Business address:	Representative from an elected official's office Name of representative: Name of elected official: Jurisdiction:
Active resident (not representing a community organization or a business) Resident name: Amanda Parsons Primary residence address (or nearest intersection): [REDACTED] Long Beach, CA	

Why are you interested in becoming a member of the AB 617 steering committee in the selected community?

I live very near the Port of Long Beach and commute in to Los Angeles every day. Additionally I work in community relations for an oil producer. I would like to know as much as I can about ways to keep the community safe. Not only for the benefit of myself and my family, but also so that I may be able to make better decisions at my workplace.

How would you support outreach to ensure all voices in the community are heard?

I am a member of the Bluff Park Neighborhood Association as well as a community relations representative for an oil and gas operator. I would like to help bridge both worlds by listening to my neighbors and to my industry.

Goals of the AB 617 Community Steering Committee

The purpose of the community steering committee is to support active community involvement and collaboration in the AB 617 implementation process by providing a forum for identifying air pollution issues in the community and potential solutions. Committee members will be responsible for discussing a variety of topics including but not limited to:

- Provide input to define community boundaries;
- Community concerns about emission sources to develop a shared understanding of the community's air pollution challenge;
- Proposed strategies for the community air monitoring and emissions reduction programs;
- Approaches for additional community outreach; and
- Metrics to track progress.

Business representative Business name: Business address:	Representative from an elected official's office Name of representative: Name of elected official: Jurisdiction:
Active resident (not representing a community organization or a business) Resident name: Sylvia Arredondo Primary residence address (or nearest intersection): [REDACTED] Wilmington	

Why are you interested in becoming a member of the AB 617 steering committee in the selected community?

I am a resident of Wilmington, and also a long-term activist on social justice issues. I am applying in my capacity as an independent local resident, because I want to help my family and local community in developing a customized Wilmington plan to reduce cumulative pollution in Wilmington in order to improve community health.

How would you support outreach to ensure all voices in the community are heard?

Because of the many activities below, I am very aware of community networks and ways to reach out to community members regarding planning for emissions reductions, and regularly do so. I am a member of the Wilmington Neighborhood Council, separately I am the Civic Engagement Coordinator for CBE, and I am also taking part in the Women's Policy Institute-State Fellowship 2018-19 in the issue area of Environmental Justice. I regularly educate my community about voter issues and many others that impact our community.

Goals of the AB 617 Community Steering Committee

The purpose of the community steering committee is to support active community involvement and collaboration in the AB 617 implementation process by providing a forum for identifying air pollution issues in the community and potential solutions. ¿Por qué está interesado en ser miembro del comité directivo AB 617 en la comunidad seleccionada?

por que me gusta ayudar en mi comunidad y quiero abogar por mi comunidad y ser la voz de la gente que no tiene el valor de abrir

¿Cómo apoyaría la divulgación para asegurar que todas las voces de la comunidad sean escuchadas?

verbal mente y en eventos y en campañas etc

Objetivos del Comité Directivo Comunitario AB 617

El propósito del comité directivo de la comunidad es apoyar la participación activa de la comunidad y la colaboración en el proceso de implementación de AB 617, proporcionando un foro para identificar los problemas de contaminación del aire en la comunidad y posibles soluciones. Los miembros del comité serán responsables de discutir una variedad de temas que incluyen, entre otros:

- Proporcionar información para definir los límites de la comunidad;
- Preocupaciones de la comunidad sobre las fuentes de emisión para desarrollar un entendimiento compartido del desafío de la contaminación del aire de la comunidad;
- Estrategias propuestas para los programas comunitarios de monitoreo de aire y reducción de emisiones;
- Enfoques para un alcance comunitario adicional; y
- Métricas para seguir el progreso.

Why are you interested in becoming a member of the AB 617 steering committee in the selected community?

I would like to be on the steering committee of the AQMD as I am very engaged in the Wilmington community and recently became Honorary Mayor of Wilmington. I was born and raised in this community and I raised all my children here so I am a proud member. As Honorary Mayor, I vowed to continue to be engaged and advocate for our community as much as possible. Being able to participate as representative for this community is important as a lot of people are not informed about everything in this community because their are either working two jobs, don't know where to go to get more information or feel voiceless. I want to be able to be the best representative to share the information from committees like this one so that we keep our community informed of all our surroundings and what we do here. I want to make sure this is the best city ever and that everyone is proud to call Wilmington home.

How would you support outreach to ensure all voices in the community are heard?

Recently during my Honorary Mayor campaign I was able to reach a lot of people to tell them about my candidacy. All my family was involved in my campaign so we reached out to longshoremen, car clubs, local businesses, all my neighbors, and friends and even those in neighboring cities because I have so many friends and am involved with a lot of clubs and organizations. If chosen to be on this committee I will work with all those I mentioned above but I will also work with the committee to identify groups I may not have a relationship with and share all the information we get and learn and ask for their input as to how we need to address all our concerns. I would be honored to be on this committee.

Active resident (not representing a community organization or a business) Resident name: Salvador Lara Primary residence address (or nearest intersection): [REDACTED] Wilmington Ca [REDACTED]	

Why are you interested in becoming a member of the AB 617 steering committee in the selected community?

I am interested in being a part of the committee because I care about my community and the environment me and my family live and breathe in. I have been a resident from Wilmington for more than 30 years and also work in the Wilmington Community. I take pride in beautifying the community, that is why I work to clean up and beautify the streets of Wilmington. I want to learn how we can work together to identify sources that are harmful to us and what we can do to make things better for us and all the communities.

How would you support outreach to ensure all voices in the community are heard?

As a resident I am very engaged with several community groups and my neighbors. In fact I was the honorary Mayor of Wilmington a few years back. About a decade ago my neighbors and I took over our gang written community by working the mayors office for a gang injunction and helping pick up bulky items in the Ghost Town Community. My neighbors and I understood that we had to take responsibility and leadership if we wanted to see changes. Since I belong to programs like I love Wilmington, SBCC, Clean Wilmington, the YMCA, and attend many community functions I would be a good advocate for all the decisions we reach. I work as a team member and have a good relationships with neighbors and people from the community. Therefore I would set up meetings with all the groups so everyone is engaged.

This is a movement not an org.

Why are you interested in becoming a member of the AB 617 steering committee in the selected community?

As a resident of Wilmington and activist on social justice, and with a master of Public Policy I can help my community on many different levels. One of the problems we face in Wilmington is the lack of plain simple use of language from gov. institutions

How would you support outreach to ensure all voices in the community are heard?

Gather information from each household such cell phone & addresses. Create a text format where everyone around the three communities chosen can be ident notify of plannings or when the monitors signal high levels of chemicals. for people to close windows & doors. Request funds for house filters.
