This compliance schedule should resemble, and is at least as stringent as, that contained in any judicial consent decree or administrative order to which your facility is subject.

A Quality Improvement Plan (QIP) may be required where the owner or operator has failed to satisfy the general duty to properly operate and maintain an emissions unit or the owner or operator has evidence of a failure to comply with an applicable requirement. The QIP would include both an initial "problem investigation" phase and a "corrective action" phase.

**Describe How Compliance Was or Will Be Achieved:** Describe in detail all remedial measures that the facility has taken or will take to bring the equipment into compliance. Attach additional sheets as needed.

**Compliance Schedule:** List each remedial measure and milestone and the date when the action was or will be completed, in chronological order.

**Section IV - Progress Report Schedule**

Provide a schedule of due dates for progress reports beginning after the scheduled date that the Title V permit will be issued. The frequency of reporting must be at least every six months. Skip this section if compliance has already been achieved for device(s) listed in Section I.
