## PREFACE

This document constitutes the Final Mitigated Negative Declaration (MND) for the Southern California Edison Center Peaker Project in Norwalk. The Draft MND was released for a 30-day public review and comment period on December 27, 2006. The comment period ended on January 25, 2007. One comment letter was received during the public comment period. The comment letter and responses are included in Appendix G of this document. Note that some minor modifications for clarity and continuity as well as to correct some typographical errors have been made to the Draft MND since its release for public review and comment. None of the modifications alter any conclusions reached in the Draft MND, nor provide new information of substantial importance relative to the draft document that would require recirculation of the Draft MND pursuant to CEQA Guidelines §15073.5. Therefore, this document is now a Final MND. To facilitate identification, modifications to the document are included as underlined text and text removed from the document is indicated by ~~strikethrough~~.
