South Coast Air Quality Management District
Rule 314 - Fees for Architectural Coatings
Product Upload File Specification

The upload text file consists of variable length, tab delimited ASCII character records with a carriage return and line feed after each product. There is no header record allowed.

Each product comprises one record. A tab delimiter is required between each field even if the field is optional and data is not included. This means that any tabs and CR/LF's in the text field must be stripped out before uploading. Apostrophes, commas, quotation marks and trademark symbols (™ ® ©) must also be stripped out before uploading.

The upload text file must follow the specifications described below:

No.	FIELD	DESCRIPTION	VALUE	MAX LENGTH	REQUIRED
1	Product Code	Product Code. Multiple product code is allowed if number of products grouped (column D) is greater than 1. Each product code must be unique (not repeated in this file)	Alphanumeric	128	Yes
2	Brand Name	Product Brand Name	Alphanumeric	128	No
3	Product Name	Product Name	Alphanumeric	256	Yes
4	SB / WB	SB = Solvent based, WB = Water-borne	SB or WB	2	Yes
5	Product Usage	I = Interior, E = Exterior, D = Dual Use	I, E, or D	1	Yes
6	Coating Category	Coating Category	2 digits integer	2	Yes
7	Coating VOC in grams per liter (less water, less exempt compounds)	Also referred to as the Regulatory VOC	integer	NA	Yes
8	Material VOC in grams per liter	Also referred to as the Actual VOC.	integer	NA	Yes
9	Maximum Material VOC as Thinned in grams per liter	Maximum Material VOC as Thinned in grams per liter. The default value is 0.	integer	NA	No
10	Averaging Compliance Option Plan (ACO)	The default value is "N".	Y or N	1	No
