

CAPES Crossword Puzzle!

The Clean Air Program for Elementary Students is a free virtual learning opportunity that will educate our youth about the importance of clean air, the impact of air pollution on our health and environment and ways that they can be Clean Air Heroes in their community.

Word Bank:

- | | |
|----------|-------------------|
| Sample | Reduce |
| Reuse | Asthma |
| Electric | Air Quality Index |
| Smog | Recycle |

ACROSS

- A scale that measures daily air quality in an area. A lower number means less air pollution. A higher number means more pollution.
- The process of collecting and processing materials that would otherwise be thrown away as trash and turning them into new products.
- A small part of something that shows what the whole is like. Small quantities of large areas are carefully chosen using scientific methodology.

DOWN

- To decrease the amount of waste we create and use items more than once.
- People with this are more endangered by poor air quality
- These cars are cleaner than gasoline powered ones because they do not produce air pollution.
- The act of taking old items that you might consider throwing away and finding a new use for them.
- Air pollution that can be seen in the sky around us.

The Clean Air Program for Elementary Students is a free virtual learning opportunity that will educate our youth about the importance of clean air, the impacts of air pollution on our health and the environment, as well as ways to become a Clean Air Hero in their community.
