Re: Comments on PAR 1111 and PAR 1121

Dear Mr. Campbell:

Daum Commercial appreciates the opportunity to provide comments on the South Coast Air Quality Management District proposed Amended Rule 1111 – Reduction of NOx Emissions from Natural Gas-Fired Furnaces (PAR 1111) and Proposed Amended Rule 1121 – Reduction of NOx Emissions from Small Natural Gas-Fired Water Heaters (PAR 1121).

Our company focuses on Industrial Real Estate in Orange county. We are committed to reducing our carbon footprint while meeting the needs of our tenants. Installation of energy efficient lighting controls, compliance with outdoor water conservation requirements, and other energy-reducing measures can be found throughout our properties.

We are concerned that the proposed rules do not take into account issues facing commercial and industrial real estate property owners and our tenants. For example, with the price of running a business there are already so many extra fees that most businesses struggle to get a location that works for them when it's time to sign a new lease and these additional costs are only going to make it more difficult for small businesses to grow as they immediately have to

We would respectfully request that the District revise PAR 1111 and PAR 1121 to provide commercial and industrial property owners with greater flexibility and time to deal with already existing leases set to renew by the end of 2026 or until such time that our local utility provider informs us that they can accommodate any new electrical hook-up which would be required due to the installation of a new system in order to avoid any additional delays for occupancy of our properties.

Thank you for taking into consideration our concerns. Please contact Steve Pearson at steve.pearson@daumcommercial.com 714-307-6511 with any questions.

Sincerely,

Turner White

Salesperson
