

Rule 1304.1

Electrical Generating Facility Annual Fee For Use Of Offset Exemption

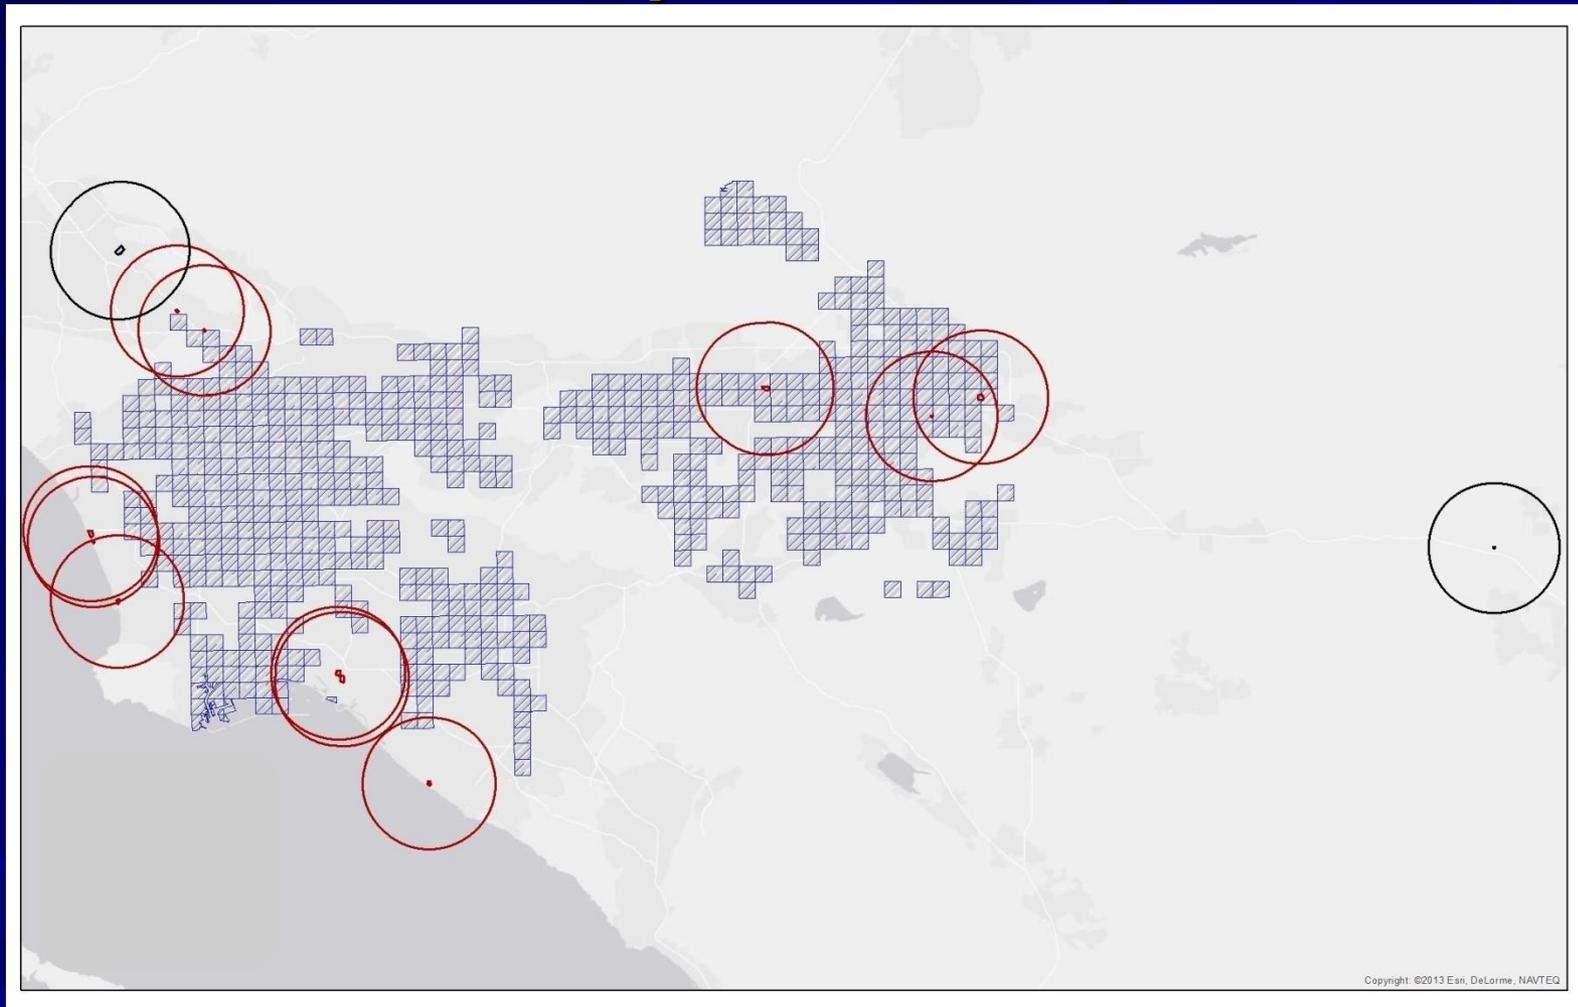

Implementation Working Group
Meeting

October 23, 2013

Background

- Rule 1304.1 adopted on September 6, 2013
- Governing Board directed staff to work with stakeholders to develop guidelines for use of funds
- Governing Board added rule language
 - “. . .priority will be placed on the use of the funds to improve air quality consistent with the AQMP in the impacted, surrounding communities”

Map of EGFs

CPV Sentinel A Case Study

- AB 1318 established broad parameters for permitting CPV Sentinel
 - Fee for offsets
 - Fees used for emission reduction purposes
 - 30% areas in close proximity
 - 30% in environmental justice areas
- EJ area definition
 - 10% of population below poverty line
 - PM 10 exposure $> 46\mu\text{g}/\text{m}^3$
 - Cancer risk $> 1 \times 10^{-3}$

Key Principals

- Monies should be spent in vicinity of project
- Priority should be given to EJ areas and AQMD control measures
- Program parameters should be flexible to adjust funding for each unique location
 - Proximity of EJ areas
 - Nature and amount of project proposals received
 - Governing Board priorities

Group Discussion

- Program Formulation
- Funding Priorities
- Project Parameters
- Tracking/Reporting

Next Steps

- Staff to synthesize input
- Program concept to be developed
- Further input from stakeholders
